Dear Mr. Anson:

This letter is regarding to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of September 20, 2019, assigned #19-01200-FOIA, for

Copies of all documents, letters, emails and other communications by HHS agencies (including the Food and Drug Administration and centers for Disease control and Prevention) with the social media network Pinterest since January 1, 2018.

This pertains to any requests from HHS that Pinterest remove certain websites or organizations that offer alternative health information, including cures for chronic illnesses, the use of supplements or advice about vaccines.

This letter is to notify you that your request is overly broad and to seek your clarification regarding the subject matter of the records you seek. The FOIA allows the public to request access to "reasonably described" existing agency records (subject to any applicable FOIA exemptions to disclosure). This means you must describe the category of records you are seeking or the actual document(s), and provide sufficient details to permit a search with reasonable effort, utilizing existing indices and search tools.

Your request is too broad because you have not provided names of specific employees to search against.

To assist the agency to conduct a reasonable search, please provide our office with additional information, such as: the full names and accurate titles of individual(s) discussing the subject of your request.

At this time, your request has been placed on hold until we receive the information requested. If you have any questions regarding your request, please contact Jonesa Davis at 770-488-6067.

If we do not receive a response from you by October 23, 2019, we will consider your request withdrawn and it will be closed.

Sincerely,

A handwritten signature in black ink, appearing to read 'Roger Andoh', with a stylized, cursive script.

Roger Andoh
